

Arvid Lorimer Olsson

I am an outgoing and energetic person. Apart from practicing and playing the tuba I occupy myself with a range of activities. You can often find me and my girlfriend at the theatre, at a dance performance or in an art gallery. For exercise I use the bicycle or the sabre, I fence. Days when I want to feel free I take the motorcycle and drive out into the countryside. If you for any reason overhear a long conversation with my friends on the telephone, it almost certainly is about politics or philosophy.
